

Fresh Fish Scheme

Place an order now To place your order with the SOS Fresh Fish Scheme please login using your SOS username and password and you will be taken directly to the Customer Area. If you are asked for an invite code then please use the one from the SOS Fresh Fish email that you will have received. If you do not yet have an SOS username and password then see below.

New customer Before placing your first on-line order with SOS you will need to register as a new user. Click on the Register Now link and complete all the fields in the form. Free Fish If you provide us the details of a successful new workplace contact, you will be given a \$10 discount on your next order. The discount will be granted once the new workplace contact has placed their first order with SOS.

About the Fresh Fish Scheme Once a week we deliver fresh fish to your workplace under our Fresh Fish Scheme. Delivery is free provided orders are over \$20. Orders are taken on a Wednesday for delivery on a Thursday. We do ask that you nominate a single workplace contact. That contact will collect payment from everyone who places an on-line order and take delivery of the fresh fish. Once we know fish availability, we will update the website with Fish of the Day and send out a notification email to all participants inviting them to place an order by 5pm for delivery the following day. All participants of the scheme will be required to login to the website in order to place or view their order. Every member of a workplace order is able to view all orders that have been placed within their workplace, but they can only change orders that they have placed. If you want to join the Fresh Fish Scheme then Register Now, by creating a personal login and providing us with your delivery and contact details. If you have any problems, please contact Mark Drewitt at mark@supremeoceanseafoods.co.nz or by phone on 021 395 430.

Instructions for the workplace contact If you have registered as the workplace contact for the SOS Fresh Fish Scheme you will receive the SOS Fresh Fish email on a Wednesday to notify you that fish is available to order. Please forward this email to all your workplace colleagues who may want to order fish so that they can order their own fish on-line. Once your colleagues have registered with SOS they will receive this email directly on subsequent weeks. You can view the order for your entire workplace so that you know from whom to collect money and who should be informed when the fish delivery arrives. Payment in full is required on delivery of your order.

Instructions for the workplace customer Your workplace contact will forward the SOS Fresh Fish email to you when fish is available for order. If you know anyone else within your workplace who would like to place a fresh fish order then please forward on the email to them. Once you have registered as a fresh fish customer with SOS you will receive this email directly once a week. Please place your order on-line before 5pm and pass your payment to your nominated workplace contact. The contact details of your local workplace contact can be seen under View Order in the Customer Area. Your local workplace contact will inform you when the fish has been delivered so that you can collect it.

Placing Orders for Others If you are placing orders on behalf of your workplace colleagues, you can use the 'Ordered for' column in the order form to record the name of the person for whom you are ordering.
